Dear Harold,

I belong to the History Book Club, which recently presented and recommended Case Closed by Gerald Posner, a book which I found to make a mockery of both history and historical research.

I thought you might be interested in the letter which I sent to the HBC protesting their recommendation of such trash as history.

Also, since your books are hard to find (I have paper back copies of Whitewash I and II) I wonder if you would do me a price list. Enclosed is a self-addressed & stamped envelope - sending

Thank you

Jim
